

Delta-8 THC

prevention
spotlight

CURRENTLY LEGAL IN NEBRASKA

Can be extracted from the hemp plant
or from the cannabis plant

The [2018 farm bill](#), a federal act passed by Congress, legalized hemp in the United States. That act defines hemp as: “All derivatives, extracts, cannabinoids, isomers, acids, salts, and salts of isomers, whether growing or not, with a delta-9 tetrahydrocannabinol concentration of not more than 0.3 percent.” This language makes delta-8 legal, because it does not contain any delta-9 THC.

SIDE EFFECTS MAY BE SIMILAR TO THOSE OF DELTA-9 THC INCLUDING DRY MOUTH, RED EYES, INCREASED APPETITE, SHORT-TERM MEMORY EFFECTS, PARANOIA, OR ANXIETY.

[REPORTED BY THE OMAHA WORLD HERALD](#) TO BE AVAILABLE IN MULTIPLE LOCATIONS AROUND OMAHA, AS WELL AS IN KEARNEY, SCOTTSBLUFF, LINCOLN AND NORFOLK AT GAS STATIONS, SMOKE SHOPS AND SPECIALTY STORES.

PRODUCTS FOR SALE INCLUDE GUMMY CANDIES, CAKE POPS, COOKIES, CONCENTRATED OILS, VAPE PENS AND EVEN PRE-ROLLED JOINTS THAT CONTAIN DELTA 8.

Very little research has been done on delta-8 THC's long and short-term effects on the mind and body. There is currently no established minimum age to purchase Delta-8 products.

THESE MATERIALS WERE FUNDED IN WHOLE OR IN PART UNDER THE SUBSTANCE ABUSE PREVENTION AND TREATMENT GRANT THROUGH THE NEBRASKA DEPARTMENT OF HEALTH & HUMAN SERVICES AND REGION 1 BEHAVIORAL HEALTH AUTHORITY.
